Journal

Office of Legislative Counsel

Monday - 11 April 1955

1. Discussed with Mrs. ^{25X1A} [REDACTED] of CI Staff and Mr. ^{25X1A} [REDACTED] certain problems in connection with H. R. 3882, a bill to require the registration of certain persons who have knowledge of or who have received instruction or assignment in the espionage service of a foreign government, on which Chairman Celler of the House Judiciary Committee has asked our comments. Some question arises as to whether Section 3(d) is now so all inclusive as to make Section 3(c) unnecessary. I will discuss this point with Mr. Foley of the Department of Justice.

The question also arises as to administrative inconvenience and annoyances to friendly intelligence services if the State Department were to include questions as to such service in visa application forms. I will discuss the State Department position in this matter with Mr. Furnas of the R Area.
